## EXPERIENCE

### CODESOFT - C++ Developer Intern

August 2023 - September 2023

- Collaborated with the software development team to design, develop, and optimize C++ applications.
- Assist in the development of high-performance, scalable C++ code for various software products.
- Debugged and resolved software defects and issues in a timely manner.
- Gained hands-on experience in C++ development in a real-world, professional setting.

### The Group Three - Web Developer Intern

September 2023 - October 2023

- Assisted in the design and development of web applications
- Collaborated with our team to troubleshoot and improve existing web applications.
- Participating in code reviews and providing constructive feedback
- Learning and implementing best practices in web development.

## SKILLS

**Programming Languages:** Java, C, Python, C++ ,HTML,JavaScript,CSS

**Frameworks & Databases:** ReactJS,NodeJS,SQL, MySQL, SQLite,MongoDB,Bootstrap

**Tools:** Git, Figma, VS Code

**Relevant Coursework:** Data Structures and Algorithms, OOP, Operating Systems, Databases, Networking

**Certifications:** Coding Ninja's CPP+DSA , Angela YU-Web Development Bootcamp

## EDUCATION

### Guru Tegh Bahadur Institute Of Technology

B.Tech in Computer Science Engineering, *CGPA: 8.46/10*

New Delhi, India  
August 2021 - 2025

### Army Public School

Intermediate PCM (CBSE), *Percentage : 83.2%*

Varanasi, India  
2019

## PROJECTS

### Text-To-Speech Generator

- Our project, "Text-To-Speech Generator" is a cutting-edge text-to-speech converter that transforms written content into natural, human-like speech. Utilizing advanced AI and deep learning algorithms, Text2Voice offers high-quality, customizable vocal outputs, enhancing accessibility and user experience for various applications, including education, entertainment, and assistive technologies

### Image Search Engine

- Our project, "Image Search Engine" is an innovative image search engine that leverages AI to deliver accurate and fast image retrieval. Users can upload or describe images to find visually similar results, making it ideal for design inspiration, shopping, and research. Image Search Engine revolutionizes how we discover and interact with visual content.

### TaskMaster

- Our project, "TaskMaster," is a user-friendly to-do list app designed to streamline task management. Featuring intuitive interfaces, customizable lists, and smart reminders, TaskMaster helps users prioritize and complete tasks efficiently. Whether for personal use or team collaboration, TaskMaster enhances productivity and keeps you organized effortlessly.

## AWARDS AND ACHIEVEMENTS

**Coding Ninjas- Codekaze** - In coding round got an All India Rank of 403 and also college Rank 1

**Co-curricular:** - In College Sports meet got gold in SHOTPUT, National Kickboxing Silver Medal,CBSE National Wushu Championship Silver Medal.
